## Believe Griffith Is Strong Enough to Get Pact Approved

**DUBLIN, Dec. 9.** — (By the Associated Press.) — The sensation following the revelation of a split in the Dail Eireann cabinet over ratification of the Anglo-Irish treaty yielded to a more calm attitude tonight. There seems to be ground for the belief that Arthur Griffith, who headed the delegation which signed the agreement in London, will have a sufficient following in the Sinn Fein parliament next Wednesday to insure ratification of the agreement by a substantial majority.

The headquarters staff of the Irish republican army is supposed to be behind Michael Collins, also a signer of the agreement, in which case a majority for ratification would be certain.

Should a considerable majority sup-

port the motion for ratification and thus vote against Eamonn de Valera, it is thought probable that he will "stand aside" and let Griffith make the best of the situation.

## AGREE ON SCHEDULES FOR CUTTING PAY OF RAILROAD EMPLOYEES

**NEW YORK, Dec. 9.** — Chief operating officials of eastern railroads, meeting today to consider wage cuts for train service, shop and maintenance of way employees, agreed upon schedules calling for reductions of from 10 to 30 per cent. The proposals must be submitted to the railroad labor board for rejection or approval. "The railroads propose to request the employees to agree to a reduction in the wage scale so as to establish them practically upon the basis in effect prior to the increases granted by the United States railroad labor board, effective May 1, 1920," said a statement issued by the executives.

## DROP ARSON CHARGE AGAINST BORDER MAN

**NOGALES, Ariz., Dec. 8.** — The charge of arson that was preferred against Alonzo E. Aviles in connection with the fire which destroyed the Broadway store here recently, was dismissed today by Justice of the Peace M. Marsteller. Aviles was bookkeeper for E. A. Dabdoub, owner of the store.

Dabdoub, who also was arrested on a charge of arson in connection with the fire, will be given a preliminary examination in justice of the peace court tomorrow.

Prince Edward Island is the smallest province of Canada.

## Market News

### STOCK MARKET

**NEW YORK, Dec. 9.** — Further pronounced diminution of dealings in stocks and bonds marked today's session of the stock exchange, although money rates eased and most other developments were of a favorable character.

The trend of prices was uncertain in the first half of the session, demand and supply being equally divided, but short coverings resulted in a firm close. Steels, equipments, coppers and oils represented the more stable issues, while motors, ship-pings, secondary rails and food and tobacco specialties yielded to pressure.

Various dormant issues of no particular description weakened in the absence of pool support. Columbia Graphophone common and preferred broke sharply as a result of voluntary bankruptcy proceedings involving the Pathe Freres Phonograph company. Sales amounted to 575,000 shares.

The money market reversed its course of the previous day, the 5 1/2 per cent opening rate for call loans leading to 5 per cent at midday. Time loans also relaxed, more 30 and 60 day loans being made at 4 1/2 per cent.

Foreign exchanges forfeited part of their buoyant advance, clearing reacting almost 1 cent from yesterday's high, with declines of 3 to 10 points in most other allied remittances. The German rate was steady but quotations to central European countries and the Far East were irregularly lower.

Victory notes were the only United States war flotations to show gains at the close of the session, all Liberty issues giving way to further profit taking.

Foreign bonds also were moderately lower, United Kingdoms reacting to the uncertain developments in the Irish situation. Gains among domestic rails were balanced by renewals especially in convertible issues. Total sales, par value, \$16,850,000.

### BRADSTREET'S SAYS

**NEW YORK, Dec. 9.** — Bradstreet's tomorrow will say: "The outstanding features in the trade reports this week are the signs of increased activity in retail trade due to the stimulus of holiday buying; the country over, and seasonal weather in northern, eastern and western areas, which is to be noted a further seasonal quieting down of business of jobbers and wholesalers, who, approaching the inventory period, are disposed to assume new commitments. Even in the matter of retail buying, however, there are irregularities visible, large department stores advertising freely, finding distribution better than do small retailers in general. As a whole, holiday trade in money value does not

### WOOL MARKET

**BOSTON, Dec. 9.** — The Commercial Bulletin tomorrow will say: While there has been rather less speculative trading among the dealers in the wool market during the past week, the market has lost none of its strength. Indeed, the manufacturers have felt obliged to come into the market for a fair quantity of wool and to have kept the tone of the market very strong. There has been some strength added to prices not only of medium grades but also of the finer wools, especially wools of good staple. The trade is more encouraged over tariff prospects.

The goods market is still in the doldrums, repeat orders being of minor proportions, although the dress goods manufacturers continue to get some orders. The mills are still busy but gradually the old contracts are being worked off and machinery activity is decreasing. Scoured basis: Texas fine 12 months, 70¢75; fine eight months, 65¢67.
